

SafeParish is our new training platform for Child Safety and Misconduct Reporting for the Archdiocese of Indianapolis. SafeParish is taking the place of Safe and Sacred. If your Safe and Sacred certificate is still valid you do not need to do anything at this time. If you are unsure of your certificate status, please contact the parish office at 812-576-4302.

Everyone in the Archdiocese needs to create a new account on archindysafeparish.org. To do so, please go to the site and click on "Register," which is at the bottom of the Login box. You will need to enter a passcode into the "Passcode / Organization Code" field and then click "Next." The passcode is **ARCHINDY2021**

You will then follow the instructions to complete your registration. Attached is a document from the Archdiocese that further explains the registration process.

Please note that your username and password from any previous training (such as Safe and Sacred) will not work on the new site. **You will need to create new login credentials for archindysafeparish.org.**

Once registered, everyone will take the training module entitled: *SafeParish: Protecting Children From Sexual Abuse - Archdiocese of Indianapolis Edition*. To find this module, make sure you are logged in and then click on "My Training." You will see a link that will take you to the training module.
